

# Oneida Nation Community Education Center

## PI5.09 HSED

If you do not have your HSED yet, consider the possibilities for obtaining one: open new career opportunities, improve your current job situation, help create a foundation for higher education, and personal satisfaction. Still not convinced? An HSED affects far more than just your earning potential and employability. In the future, your degree can also influence your finances, society, and retirement planning.

The 5.09 HSED option is an individualized, self-paced program for adults that have not found success due to any kind of learning disability or low TABE assessment score that causes barriers to passing GED tests.
